Topic - My Body

17th/20th/2020

Introduction:- Our body is wonderful. It is made up of many parts. We can do a lot of things using our body. Each part of our body has a different name and use.

Now let us learn the names of the different parts of our body.

- All these parts of the body are called External Organs.

- Q. What do you mean by external organs?

- Ans:- Organs that are situated on or near the surface of the body are called external organs.

- H.W → Learn to identify the body parts.
