# Animals in the Jungle

## Get Set!

We live in the forest! Write our names.\*

❖ Alice followed me down the hole to Wonderland.  
I am a r a b b i t

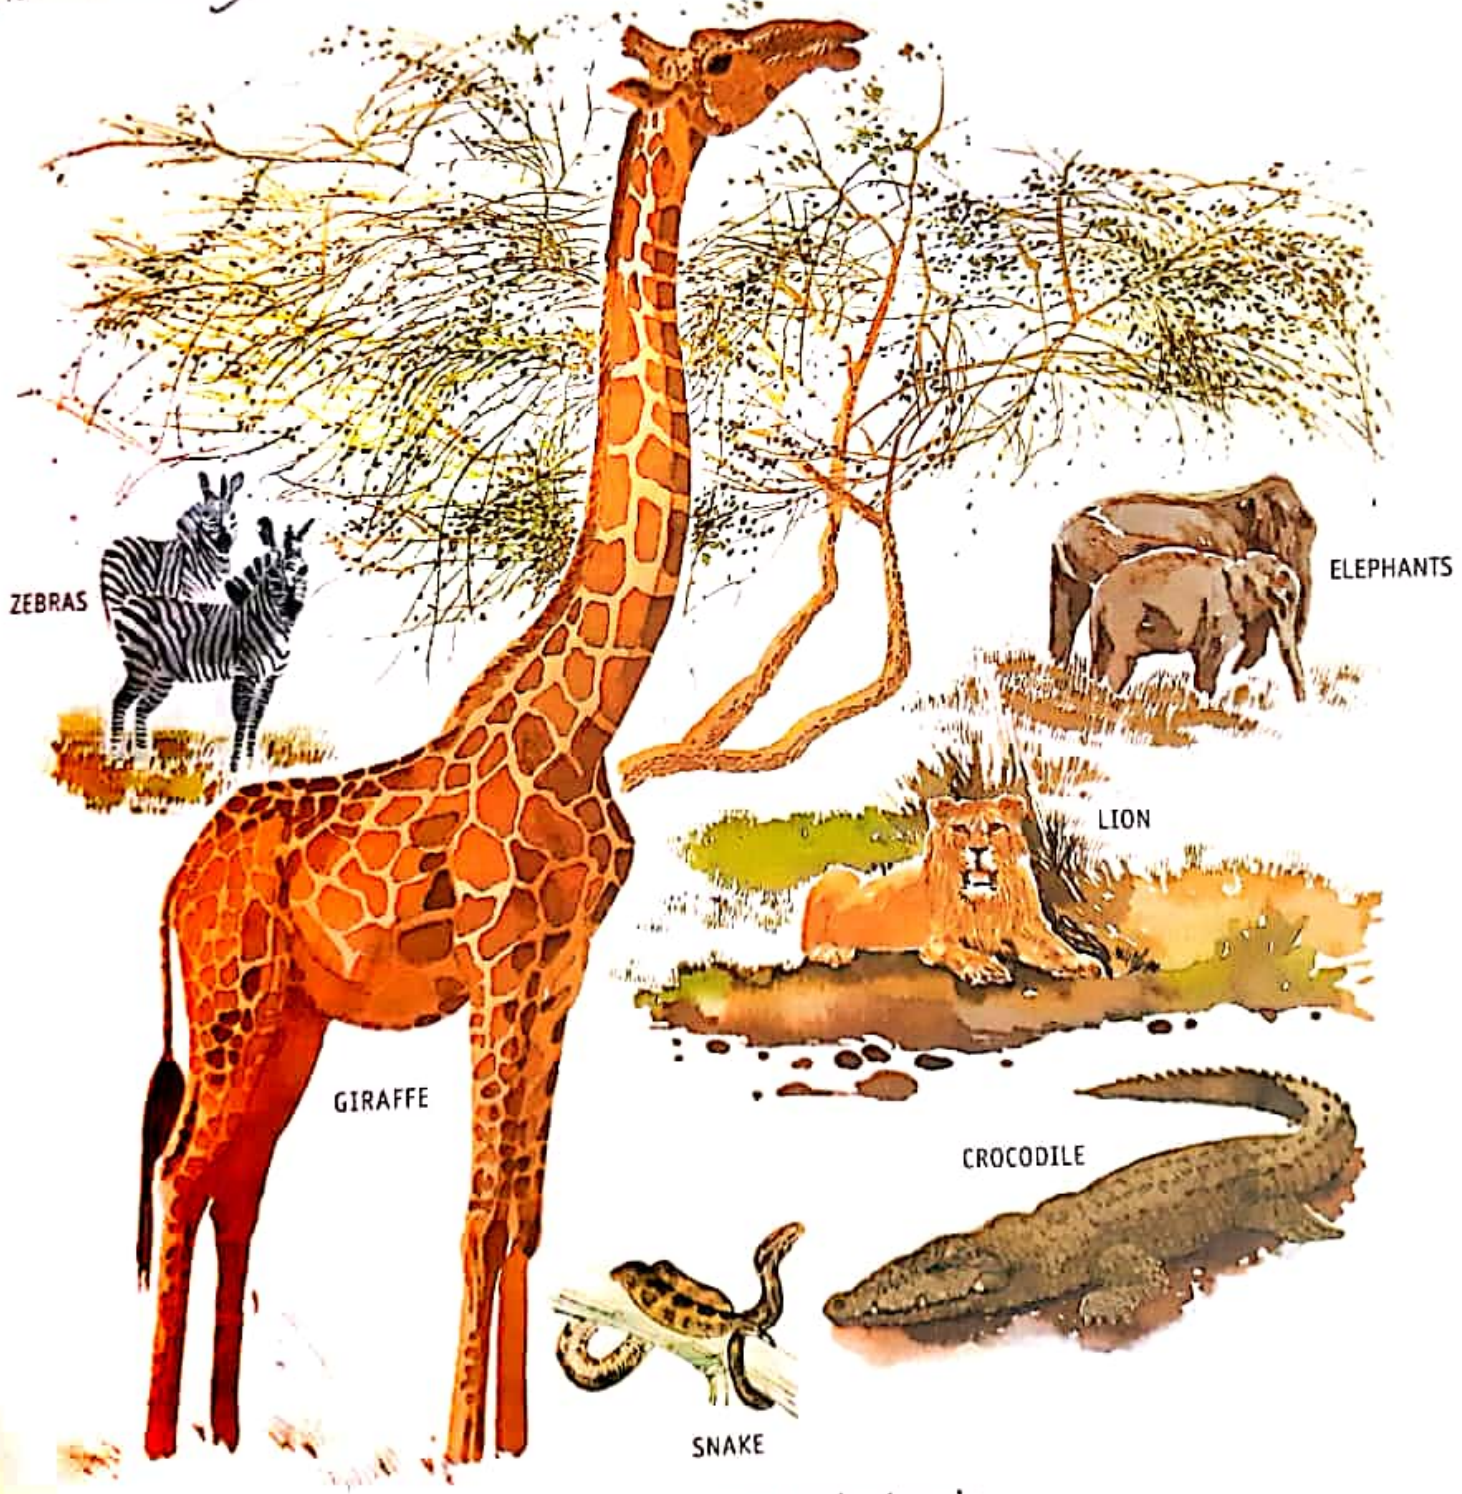

❖ I tried to scare little Red Riding Hood.  
I am a w o l f

❖ Goldilocks came to our house. We are the three b e a r s

Let us read about wild animals.

Dogs, cats and rabbits can be kept at home. They are pet animals. Have you ever seen an elephant, a lion or a bear being kept as a pet? No. These animals live in the jungle. They are called **wild animals**. Tigers, zebras, giraffes, bears, deer, owls and snakes are some other wild animals.

Wild animals live in the jungle.

## Where Wild Animals Live

Wild animals like elephants, gorillas and monkeys wander in the jungle. They rest on or under trees. Lions live in dens. Bears live in caves.

Many wild animals live on or under trees, in nests or in dens.

Birds make nests to lay eggs and to keep their babies safe.

Animals like moles, rats, mongooses, snakes and rabbits live in holes in the ground.

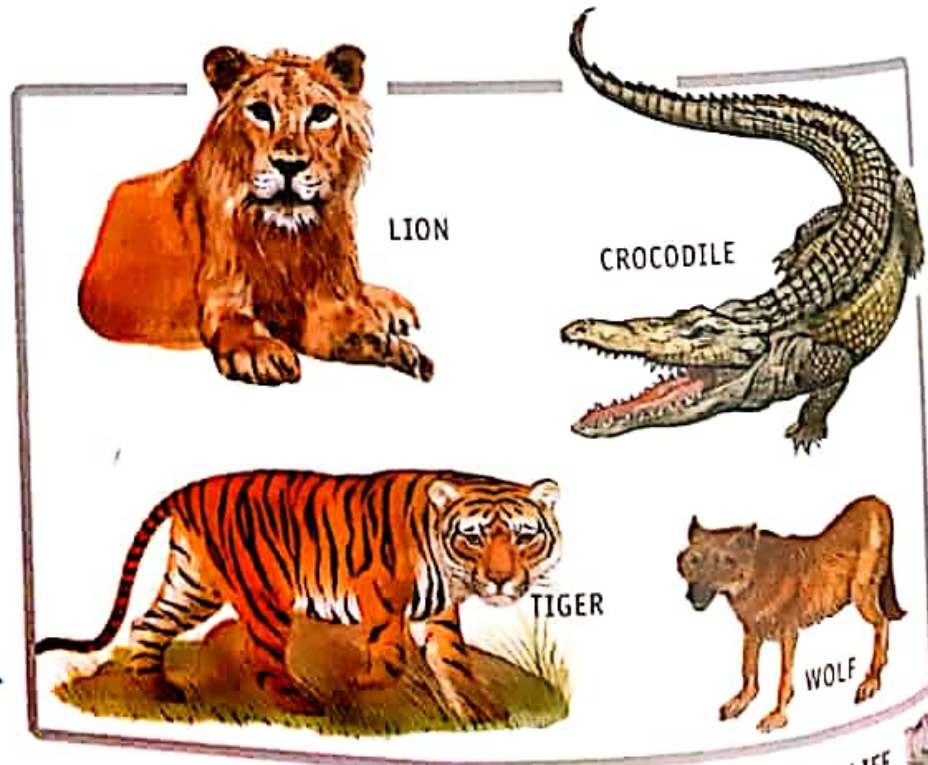

Some animals live in holes in the ground.

## What Wild Animals Eat

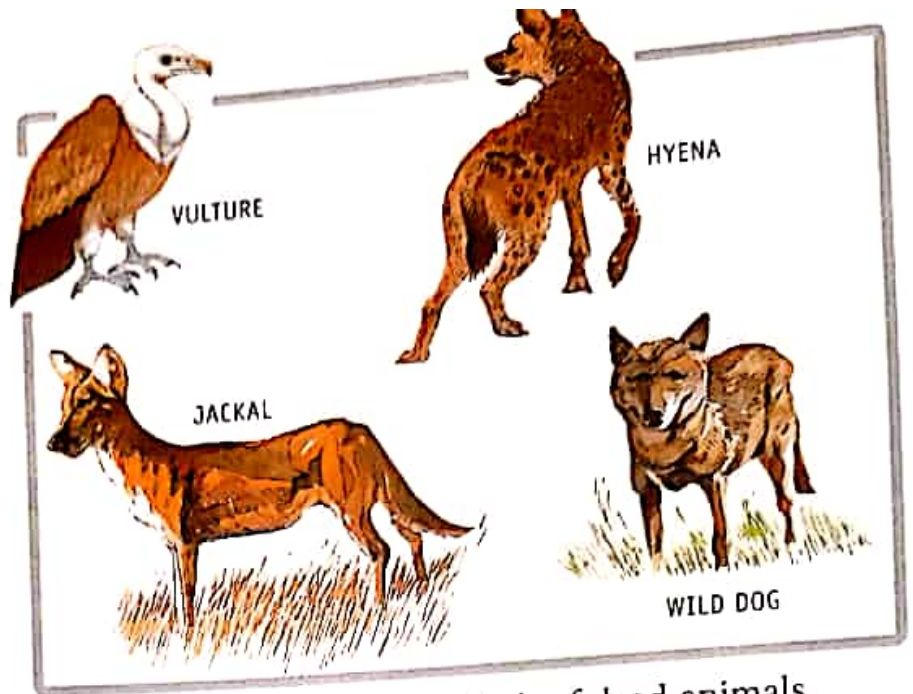

Some animals eat other animals for food. They kill them and eat their flesh. Wolves, lions, tigers, cheetahs, panthers and crocodiles are some such animals.

Some animals eat other animals. →

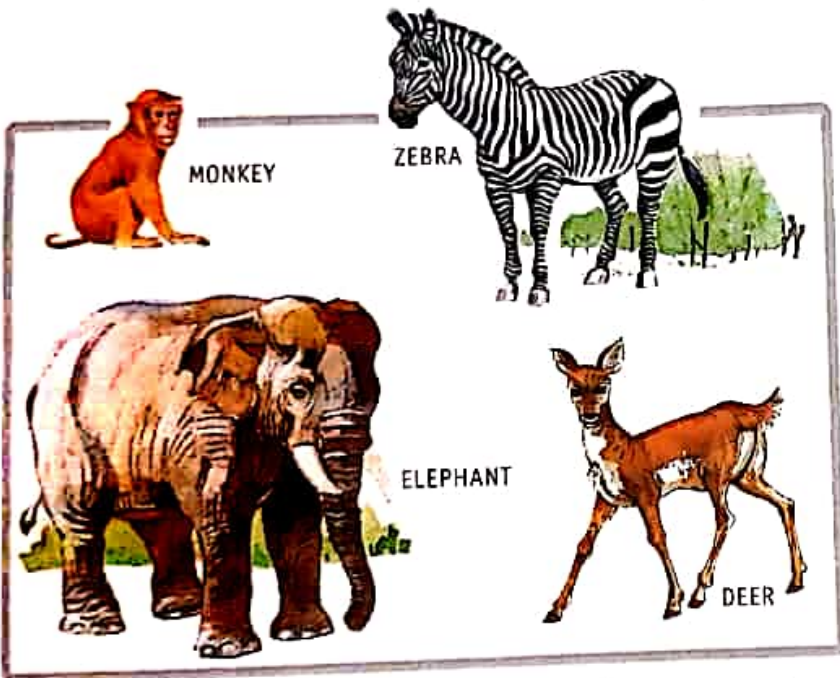

Some animals eat the flesh of dead animals. Vultures, wild dogs, hyenas and jackals are some such animals.

These animals help to keep the jungle clean. Wild animals like to live in the jungle. It is cruel to keep them in cages.

Some animals eat the flesh of dead animals.

Some animals eat grass, leaves and green plants.

Some animals eat grass, leaves and green plants. Giraffes, elephants, zebras, hippos, deer and monkeys are some such animals.

### We Must Protect Animals

Animals become homeless when we cut down trees and destroy jungles.

We must help protect animal homes.

### Let us say it again

- 🍌 Wild animals live in the jungle.
- 🍌 Some animals eat plants. Some eat the flesh of other animals.
- 🍌 Some animals live on or under trees.
- 🍌 Some animals live in holes in the ground.
